# Project Vision And Mission

## Vision

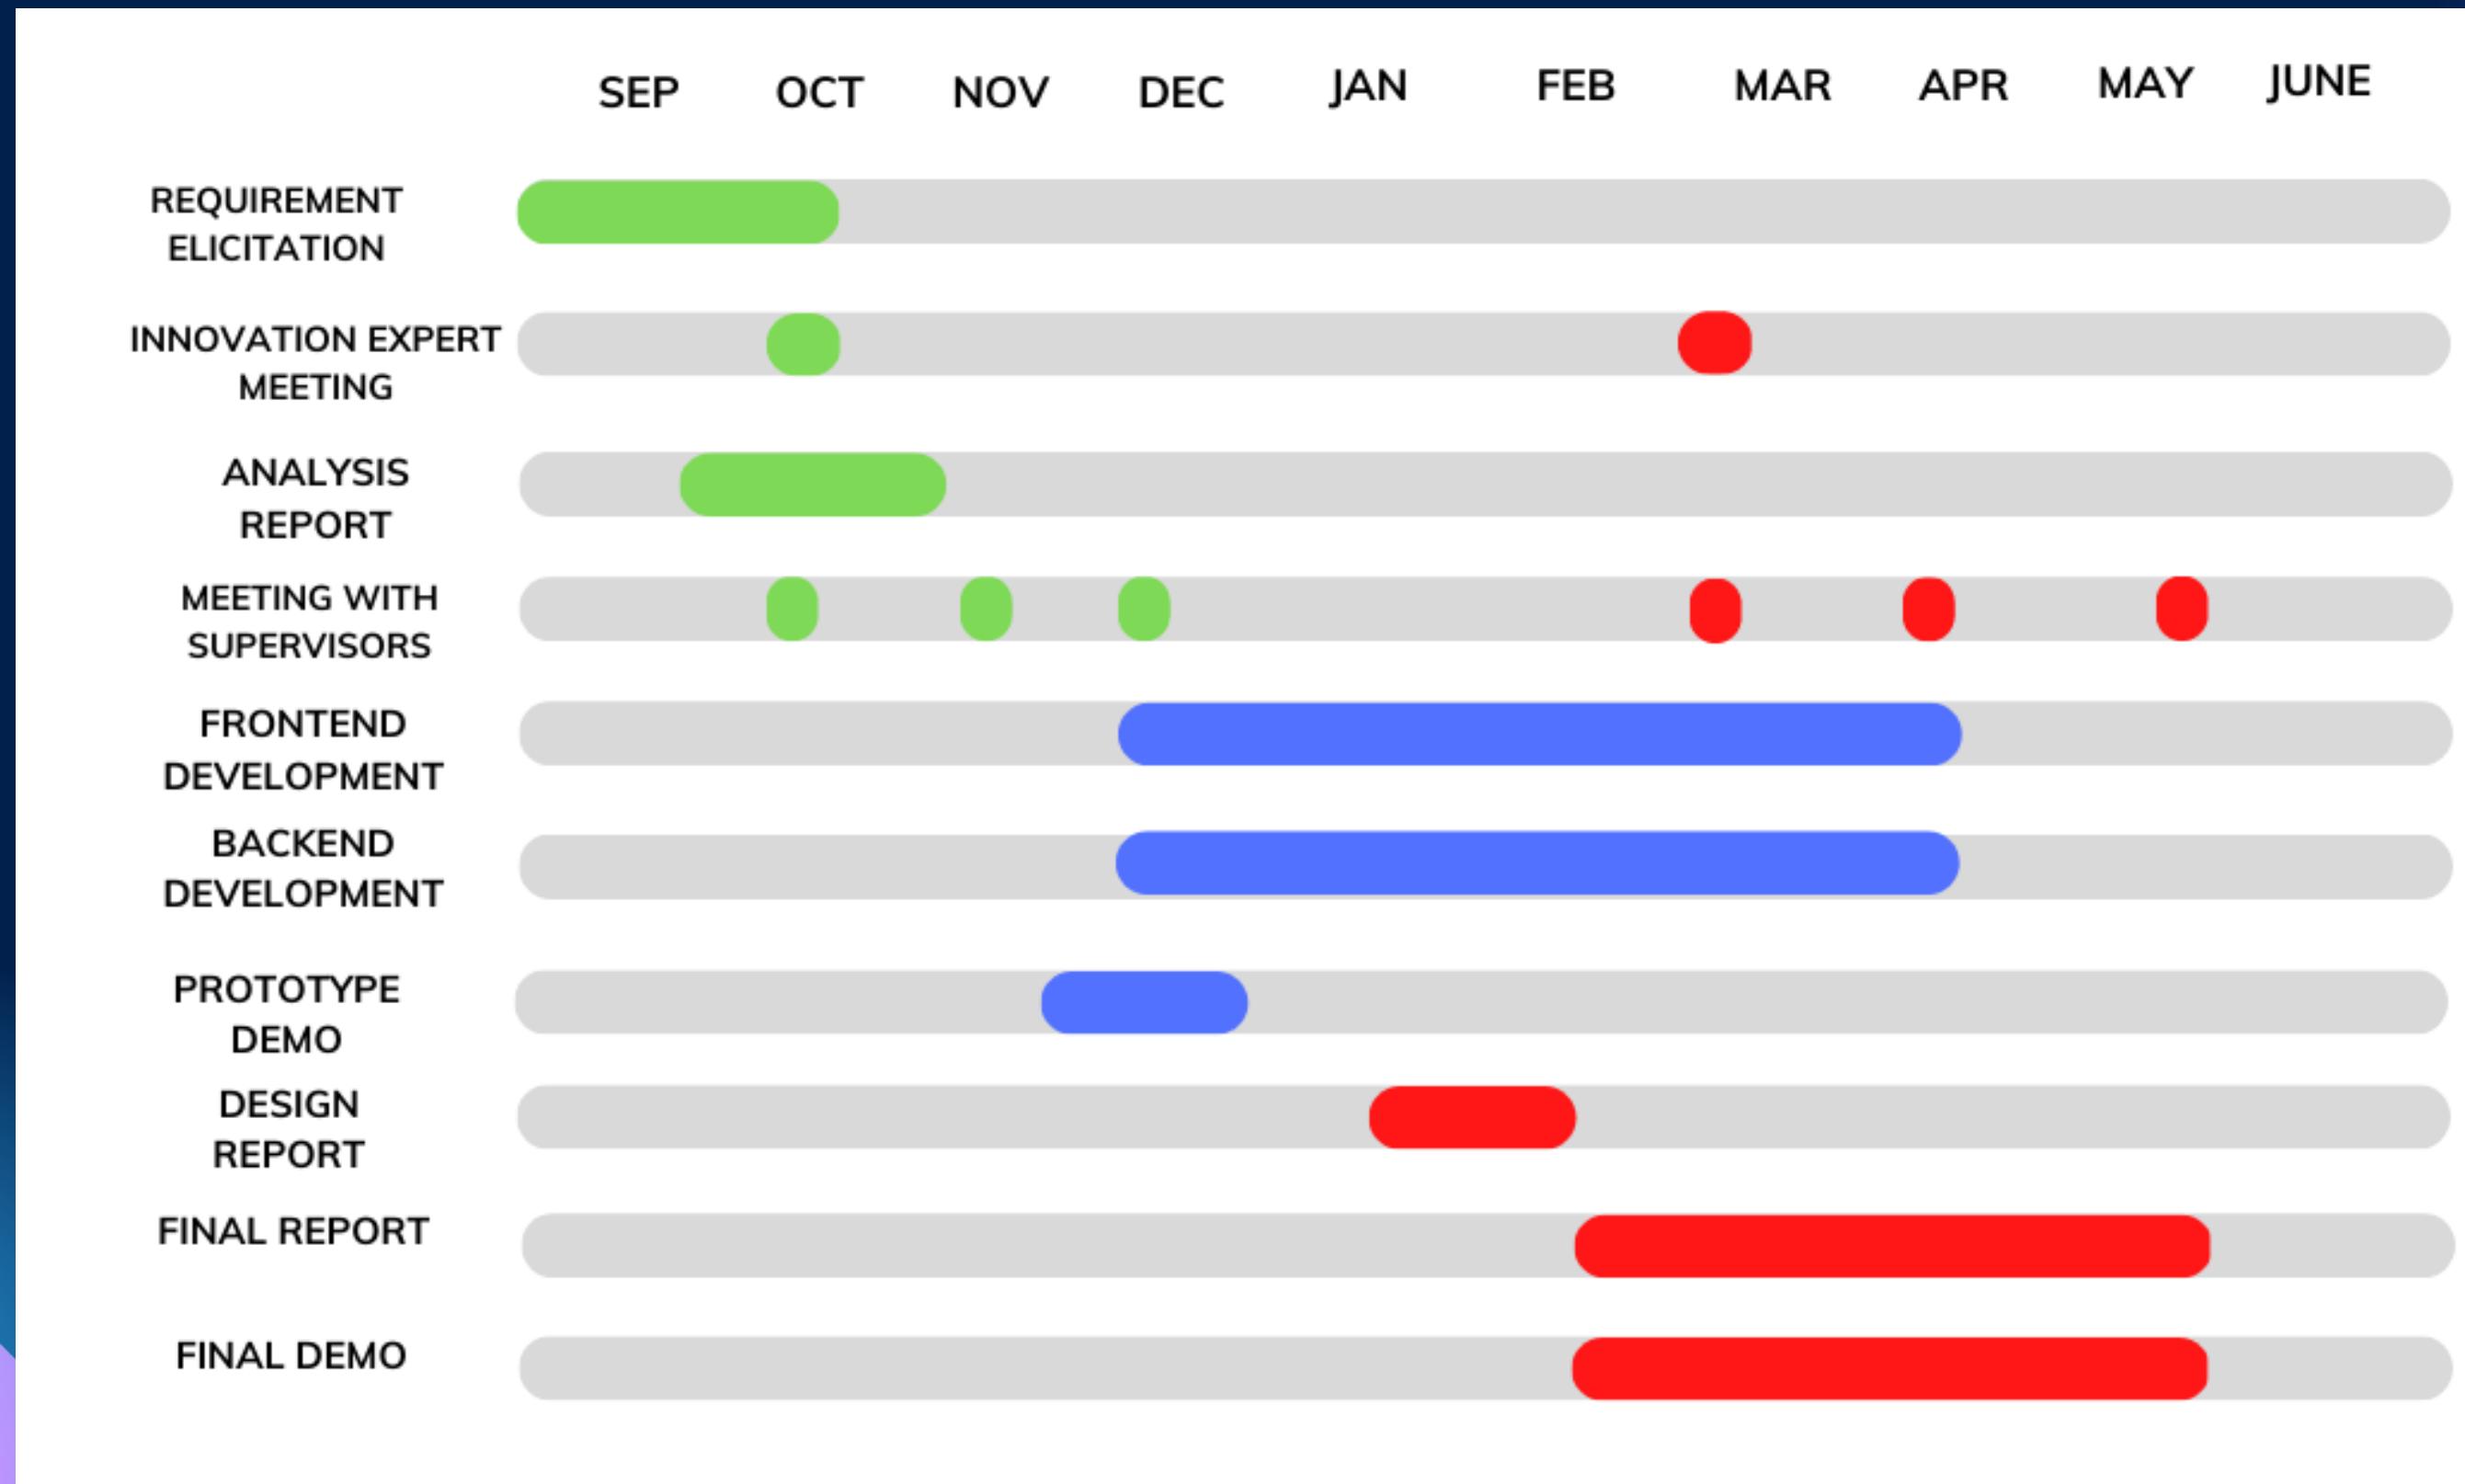

Simplify and enhance the experience of finding a roommate/flatmate

## Mission

Build a mobile application that places the choice within the user's hand through the power of machine learning algorithms

# Gantt Chart

Legend:

- DONE (Green)
- IN PROGRESS (Blue)
- TO BE DONE (Red)

# Project Plan

## Backend

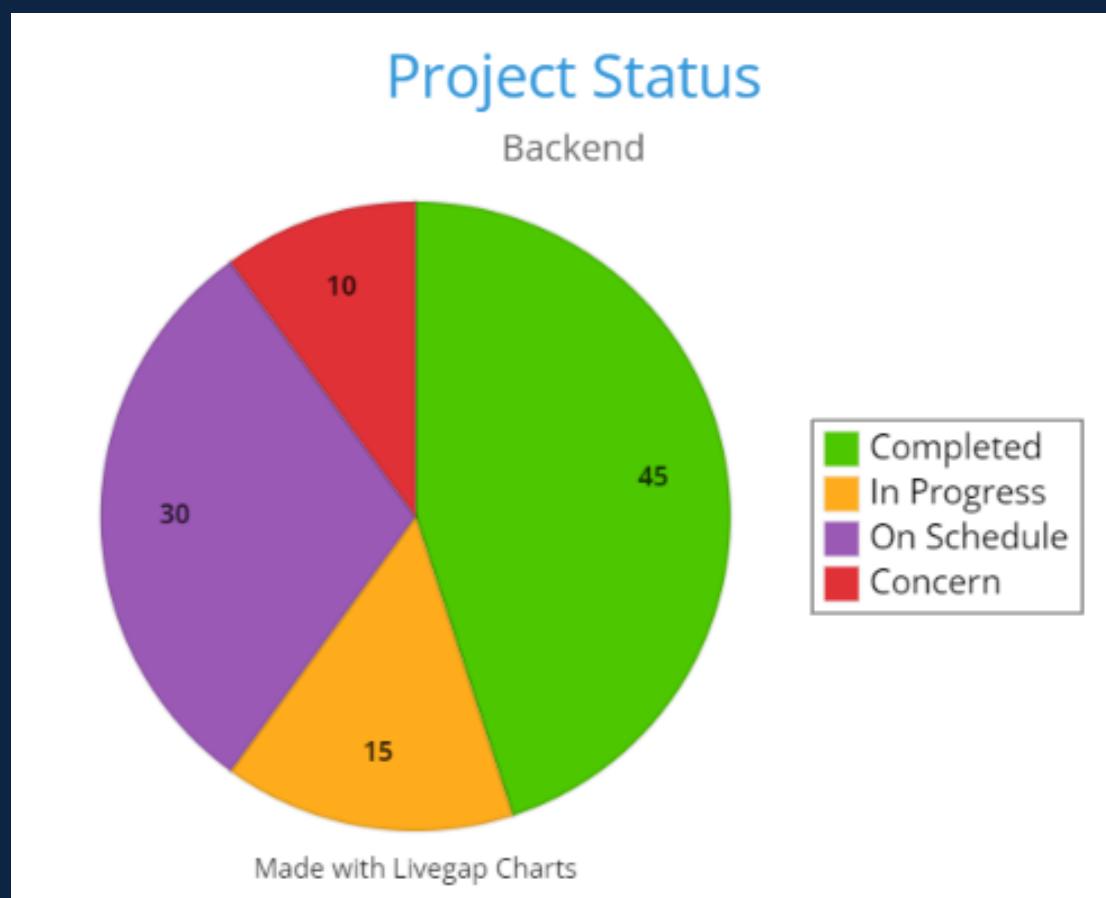

- Matching Algorithm Completion
- Performance Optimization
- Admin Flow
- Robustness Testing

## Frontend

- Design a Modular Architecture
- Create Custom View Components
- Create Fragments & Dialogues
- Create Navigation Graph
- Unit Tests

# Project Status

## Backend

## Frontend

- Design a Modular Architecture
- Create Custom View Components
- Create Fragments & Dialogues
- Create Navigation Graph
- Unit Tests

# Demo

## BilMate Demo

- Home screen is implemented
- Loading and Error states are included
- Module flow from API to UI is functional
- Some custom views are implemented (e.g. ToolbarCustomView, ScreenStateView)

Ghost in The Toast (GiT), T2335

thank you

for your time and attention!
